Dear Adriano,

As the organization committee for the 2023 IEEE International Conference on Data Mining (ICDM-2023), we are pleased to invite you to serve as a Program Committee member for the conference. Given your expertise and established reputation, your assistance will help us continue this tradition of excellence and ensure we select the best quality papers for presentation at the meeting.

The paper submission deadline for ICDM-2023 will be on July 1.

Your main task as a Program Committee member would be the review of submissions to ICDM-2023 according to the following schedule:

- Paper bidding (July 1 - July 15): place bids on papers; each PC member will bid on about 20 papers and is then assigned 5 - 7 papers to review.

- Reviewing (July 15 - August 15): carry out reviews of the 5-7 papers assigned to you.

- Discussion (August 15 - August 25): controversial papers and borderline cases are discussed among the PC members. The discussions are facilitated by Area Chairs, who also will make recommendations for acceptance.

We really hope that you are willing to accept this invitation, and that you can commit yourself to the tasks and schedule above. We know that PC membership involves a large amount of work but we hope that it is a rewarding duty. As you know, the quality of the conference crucially depends on a high quality review process, and your experience and help would greatly benefit the data mining community!

We are looking forward to working with you to make the scientific program of ICDM 2023 successful. Please use the links below to accept or decline this invitation before Mar. 17th, 2023:
