Dear Dr. Adriano Veloso,

As the organizing committee of the 2025 IEEE International Conference on Data Mining (ICDM 2025), we are pleased to invite you to serve as a Program Committee member.

This year's conference will be held in Washington, DC, USA, from November 12–15, 2025. For more details, please visit the ICDM 2025 website: <https://www3.cs.stonybrook.edu/~icdm2025/index.html>.

Given your expertise and established reputation, your assistance will help us continue this tradition of excellence and ensure we select the best quality papers for presentation at the meeting.

The paper submission deadline for ICDM 2025 will be Friday, June 6.

Your main task as a Program Committee member would be to evaluate submissions to ICDM 2025 according to the following schedule:

- Paper bidding (June 9 - 16): place bids on papers; each PC member will bid on about 20 papers and is then assigned 5 - 7 papers to review.

- Reviewing (June 21 - July 19): carry out reviews of the 5-7 papers assigned to you.

- Discussion (July 21 - 30): controversial papers and borderline cases are discussed among the PC members. The discussions are facilitated by Area Chairs, who also will make recommendations for acceptance.

We sincerely hope you will accept this invitation and commit to the schedule above. We recognize that PC service is a significant undertaking, but it is also deeply rewarding. The strength of ICDM relies on the rigor of its review process, and your contributions would be invaluable to the data mining community.

Please use the links below to accept or decline this invitation by Friday May 30, 2025:
