Dear Adriano Veloso,

Some time ago you should have received an invitation to serve on the program committee of IJCAI 2019.

Some mails got lost. In other cases, the links failed to work. I really apologize. In any case, I would be grateful if you can give me an answer, which I very much hope to be positive!

To accept the invitation: https://ijcai2019.confmaster.net/invitation/6VplmkGLQH4E/accept

To reject the invitation: https://ijcai2019.confmaster.net/invitation/6VplmkGLQH4E/reject

In case you have any questions before answering, please write me (sarit@cs.biu.ac.il). This is true especially if you are hesitating to join the program committee for a specific reason such as workload or schedule (especially in the case where you are not available during the review period or the discussion period, since we need some PC members to act at later stages): in this case, I'd like to interact with you rather than seeing you declining the invitation.

Best regards,

Sarit Kraus

IJCAI-2019 Program Chair

The original message is below.

Dear Adriano Veloso,

I have the great pleasure to invite you to be a program committee member for IJCAI-2019 (https://ijcai19.org/), that as you may know will be held on August 10-16, 2019, in Macao, China. As a program committee member, you will be in charge of at most 7 papers. For each of these papers, you will write a review and participate in the discussion with the other reviewers and the SPC member in charge of the paper to try and reach agreements on the strong and weak points of the papers.

The main deadlines are:

Paper submission deadline February 25, 2018
Rebuttal period April 13-18, 2019
Paper notification May 9, 2019

As it important that reviews are written by competent end experienced researchers, all invited PC members are strong researchers with an experience of reviewing for AI conferences. I hope you are interested in working with me to make IJCAI-2019 a successful conference. You certainly understand that submissions can be reviewed fairly and efficiently only if the vast majority of competent and experienced researchers in the field participate in the review and selection process.

This year, when submitting a paper, authors will have to tick a box saying that they commit to helping, in one way or another, in the review process, if they are asked to do so. (Authors of submitted papers who have declined an invitation to serve on the program committee may be asked to serve as auxiliary reviewers for papers on which we need more reviews.)

Please let me know if you accept my invitation as soon as possible so that I can publish your name on the conference website, and send you more detailed information about the workflow we will follow.

If you already received another invitation to a PC or other roles in IJCAI 2019, please just reject this one.
In case you have any questions before answering, please write me (sarit@cs.biu.ac.il). This is true especially if you are hesitating to join the program committee for a specific reason such as workload or schedule (especially in the case where you are not available during the review period or the discussion period, since we need some PC members to act at later stages): in this case, I'd like to interact with you rather than seeing you declining the invitation.

To accept the invitation, please visit: https://ijcai2019.confmaster.net/invitation/6VplmkGLQH4E/accept

To reject the invitation, please visit: https://ijcai2019.confmaster.net/invitation/6VplmkGLQH4E/reject

In some rare cases, these links may fail. In this case, please write me an email.
