Dear Adriano Veloso,

We are writing to you as Research Track Co-Chairs of KDD-2023, to be held in Long Beach, California, USA from August 6 to August 10, 2023. We would like to invite you to serve as a member of the Program Committee (PC) of the KDD-2023 Research Track. KDD-2023 has two tracks: Research Track and Applied Data Science Track. You are recommended to serve in one of them.

The paper submission deadline for KDD-2023 is February 2, 2023 (there is no separate abstract deadline) and the acceptance notifications will be sent out by May 18, 2023.

Each PC member will be responsible for reviewing around 6~8 papers (likely 6). We will strive to keep the number of papers assigned to each reviewer as low as possible. More specifically, each PC member will be involved in the following steps of the process.

- Paper Assignment (Feb 9 - Feb 16): We will use OpenReview to manage the reviewing process. OpenReview will automatically assign papers to PCs; the assignments will also be checked by the SPC.
- Reviewing (Feb 16 - Mar 23): Follow the review process and ensure that your reviews will be entered by March 23.
- Discussion (Apr 6 - Apr 27): Author/Reviewer rebuttal and discussion interaction. Read rebuttals and give feedback in a timely manner. We encourage more discussions between authors and reviewers to improve review quality.

We really hope that you are willing to accept this invitation and help the KDD community to further grow. It certainly means a lot to have a reliable and fair reviewing process. Your experience and help would greatly benefit the KDD community.

We are looking forward to working with you to make the research program of KDD-2023 successful. Please respond to this invitation by *Jan 3, 2023*.

Best Regards,
